

Lily's
beauty salon

Welcome to Lily's Beauty Salon.

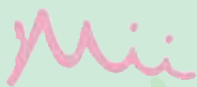

We are a luxurious, award-winning Beauty Salon situated within the market town of Whitchurch, Shropshire. Our well-established salon thrives on our excellent customer service and regular clientele.

We have three treatment rooms as well as a welcoming reception area where you can relax before or after your treatments and enjoy our specialist herbal teas, coffees and array of magazines. Our holistic rooms have heated blankets on the beds to make your treatments extra special.

Treatments are carried out with the most advanced product ranges available on the professional market and we are always striving to keep this up to date as the industry advances. We have a prestigious range of product houses including Germaine de Capuccini, Olverum, Body Ballancer, Mii Make-up and Cosmetics, Lava Shell and Nouveau.

We offer a wide range of treatments from regular maintenance treatments to more luxurious pampering treatments. Why not make your visit a little more special and come for a spa package day? During our spa package days, we provide robes and slippers to help you instantly relax whilst having your treatments. We provide a unique afternoon tea experience to be enjoyed alongside any treatment here at Lily's Beauty Salon. Please call the salon for more details.

At Lily's, we provide gift vouchers to treat the loved ones in your life, whether a monetary amount or for a specific treatment that you would like them to enjoy. Each voucher is individually wrapped and tied with ribbon to make the gift extra special.

CryoPen®

CryoPen® is an innovative, high-performance cryosurgery tool which uses advanced freezing innovation that is fast, effective and safe for millimetre-precision removal of benign skin lesions on the face and body.

Nitrous oxide rapidly freezes and destroys targeted cells but does not cause unwanted damage to the surrounding healthy tissue. It works at -89°C which is as cold as possible without causing tissue damage. Traditional freezing methods using liquid nitrogen are at a temperature of -196°C and come with a much higher risk of damage, together with the use of a cryoprobe or application which could offer less precision than the Cryopen. This is why nitrous oxide is now favoured over liquid nitrogen.

Most unwanted benign skin lesions can be removed such as:

verruucas ● skin tags ● warts ● moles ● pigmentation ● sun damage ● age spots ● stubborn milia ● cherry angioma, and more

£52 - Initial consultation & first treatment

£29 - Repeat treatment

Map My Mole

To further support our Cryosurgery, we are also partnering with Map My Mole, a private service that offers remote assessments of moles and skin lesions by leading consultant dermatologists, usually with results being received within 24 hours. This partnership offers added peace of mind to both you and us, with a consultant's diagnosis on the lesion before treatment.

£69 - Including Dermatologist Report

Germaine de Capuccini

Since its humble beginnings in 1964, Germaine de Capuccini has been developing cutting-edge skincare solutions. As one of the few

professional brands with in-house laboratories, their team of scientists are dedicated to the highest standards in skincare.
